

PRACTICAL CHECK SHEET

Candidate: _____

Successful

Evaluator: _____

Unsuccessful

Date: _____

1006-SKILL-16

| | |
|-----------------------------|--|
| Standard: | NFPA 1006 – 2021 edition – 5.2.11 |
| Task: | Belay a falling load in a high-angle environment |
| Performance Outcome: | The belay line is not taut until the load is falling, the belay device is actuated when the load falls, the fall is arrested in a manner that minimizes the force transmitted to the load, the belay operator utilizes the belay device as designed, and the belay operator is not injured or otherwise incapacitated during actuation of the belay system |
| Conditions: | Given a belay and a failed line creating a dropped load |
| Candidate Directive: | “Belay the falling load in the provided system”. |

| NO. | TASK STEPS | TEST | |
|-----|--|------------|--------------|
| | | Successful | Unsuccessful |
| 1 | The belay line was not taut until the load was falling | | |
