## Construction Update

November 19, 2024 issue #4

### THE NEWS

The art banners have been installed on the construction fencing and they're looking great. They are the result of a collaboration between the DNBA and the City of Nanaimo. A special thank you to the local artists that contributed their works for the enjoyment of everyone!

Thank you to Windley Construction as well, who did an amazing job of installing temporary asphalt and cleaning up at Chapel and Church Streets in preparation for the Remembrance Day ceremony.

### WHAT'S NEXT?

The watermain south of Bastion Street was connected to the network last week and the services to each building were switched over to the new main. Now that the old watermain has been taken out of service south of Bastion Street, excavation for the soil cells on the west side of Commercial Street can begin.

First, the back-filling will be completed on the east side of Commercial Street and a temporary sidewalk will be constructed to facilitate continued, uninterrupted access for pedestrians.
