Therapy Aquafit: Improve your mobility with this low impact class. The focus is on movement, range of motion, balance, strength and stretching. Water therapy is highly recommended for people with arthritis, joint replacement, pre and post surgery and those with limited mobility.

Shallow Water Aquafit: This is a high intensity cardio workout without the impact of dry land aerobics. Open to all levels and abilities.

Deep Water Aquafit: Strengthen and tone your body with this zero impact class. You'll achieve excellent cardio and strength training using water as resistance. Classes are done in deep water wearing a floatation belt.

Aqua Zumba: This class is perfect for those looking to make a splash by adding low-impact, high energy aquatic exercise to their fitness routine. Aqua Zumba® blends the Zumba® philosophy with water resistance for one pool party you shouldn't miss! **Instructor: Amber Bruner.**

Shallow/Deep Combo: This is designed for both shallow and deep water aquafit enthusiasts. Enjoy the benefits of training your cardio, strength and flexibility in this water fitness class. SUMMER CAMPS

Design Your Own Summer Schedule!

These camps listed below take place Monday to Friday from 8:30 am to 5 pm.

Pick the days and locations that best meet your family's needs!

- Camp Wild • Camp Holiday • Bowen Explorers • Girls Get Active • RecHockey
- Cool Kids Skate • Smash & Splash • Centennial Sports Camp

Our camps are filled with fun and adventure each day! Our camp leaders will ensure your child's day camp experience is a memorable one. Each day is comprised of various activities, including lots of games, sports, arts, crafts, drama, storytelling and outdoor exploring. Out trips, special guests, gym time and special theme days may also be part of the camp experience. We select our camp leaders for their maturity, skills and experience with children. In addition to planning and supervising our camps, these staff members receive training in leadership, safety and emergency procedures. They are also certified in both first aid and CPR. Our LIT and QUEST youth volunteers assist leaders with program activities.

Camper Drop Off & Pick Up

- Please allow extra time to sign in on the first day of each camp and bring completed medical forms to each camp.
- Parents/guardians or authorized persons **must** sign their child(ren) in and out daily (mandatory); no drop off prior to start time.
- On-time drop off and prompt pick up are important. **\$1/minute** charges are in effect for late pick ups.
- If your child has any serious medical conditions, behavioural concerns or any other issues that may affect their experience at camp, please call us.
- To ensure that all children can participate fully in all indoor and outdoor/off-site activities, please prepare them with suitable clothing for all types of weather. Remember, these camps are held primarily outdoors.
- Activities will run as scheduled unless the conditions necessitate a change in schedule. In this case, alternate indoor activities will be offered (be prepared for unexpected weather changes). Building a Sheet Mulched Bed NEW!

Building a new garden? Don't dig up that sod. Instead, turn it into compost right in place by building a sheet mulched bed. With some basic materials, these gardens can be planted into right after you build them right on the ground or a raised bed. This will be a hand-on class, so bring your garden gloves, and dress for the weather.

Instructors will use visual, verbal and kinaesthetic (hands-on) cues to teach better movement. Participants should be able to do gentle movements of walking, sitting and lying on a mat.

Swimming Lesson Tips for Success

We are pleased to bring you the Lifesaving Society's Swim for Life Program to highlight the importance of swimming and water safety skills. Swimming can be fun and is also a necessary life skill. Help your child start swimming on the right foot.

- Evaluate your child's swim ability and choose a class level, date and time. Not sure of their ability? Stop by one of our pools during an "Everyone Welcome" swim session and have one of the lifeguards evaluate your child (depending on staff availability).
- Register for a class online or at one of our facilities early, as classes fill up quickly.
- Arrive no more than 10 minutes early to check-in and familiarize your child with the facility. Please have your child ready for class at the start of the lesson time.
- Lockers are available and recommended. Tokens can be purchased from our front desk staff.
- Have your child go to the bathroom before lessons. Children who are not potty trained must wear a swim diaper (available for purchase at the front desk).
- All patrons must shower before entering the pool.
- Bring your child's towel onto the pool deck to keep your child warm before and after lessons.
- Please stay home if not feeling well.
- At the end of lessons, your instructor will recommend the appropriate level for the next set of lessons. Levels are frequently repeated to allow students to master skills and feel successful before moving onto a new level.

Pricing for Swimming Lessons (lesson prices are pro-rated for holidays & swim meets)	
30 Minute Lessons	\$70/10 lessons
45 Minute Lessons	\$110/10 lessons
60 Minute Lessons	\$140/10 lessons

Waitlists for Swimming

Is a swimming class full? Put your child's name on the waitlist for the specific class you want. If a spot comes up, we will contact you. If there is enough interest in a particular level, we will do our best to create a new class and contact you to see if it works for your schedule.

Arena Programs

Welcome to Nanaimo RECSKATE

RecSkate is a progressive skating skills training program for all ages and abilities necessary for life-long participation and the improvement of physical literacy as it relates to all sports. It provides the foundation for success in recreational hockey and figure skating. The program emphasis is on encouragement through comprehensive feedback. Participants receive a ribbon for each level passed, and upon completion of Level 7, skaters will receive a medallion of achievement. See our schedule on the following pages.

Boots to Blades 1 & 2

2 to 5 Years

Boots 1 is a perfect intro for those who have never been on the ice before or for those who have yet to master standing in skates. Skaters get a feel for the ice wearing shoes or boots and then graduate to skates at the discretion of the instructor. Parent participation is required.

In **Boots 2**, skaters start the program wearing skates, as they will have had some experience but still need to learn the basics. The focus for both levels is getting skaters comfortable through play and practicing some basic skills. Parent participation is required.

RecSkate 1

This introductory level of skating will help skaters learn to fall safely and get up unassisted, skate across the ice by themselves without falling and work on basic balance and gliding skills. This is not a parent participation class.

RecSkate 2

This is when it all starts coming together! Skaters at this level will begin to gain strength and speed and will work on two-foot gliding, touching toes and will be introduced to backwards skating. Other skills taught in this level are stopping, scoops, turning and hops.

RecSkate 3

This level focuses on skills, such as skating on a curve, side stopping and transitions. Skaters will also be introduced to circle thrusts, backward stroking and forward slalom skating.

RecSkate 4

At this level, participants master crossovers, inside edges and backwards stopping. Skaters will also work on side hops, mohawks and backward thrusts. This is an excellent level for hockey players to improve their basic skating skills.

RecSkate 5

Skills include forward outside edges, backward one-foot gliding, mohawks, backward crossovers, t-stops and one-foot jump transitions. This is great for skater agility, balance and strength.

RecSkate 6/7

RecSkate 6 is a challenging level which emphasizes balance, gliding and foot control skills. Skaters will also work on figure eight crossovers, jumping turns and other one-foot skills that increase balance, strength and agility.

RecSkate 7 is the final level of our RecSkate program. Backwards skills are emphasized, along with the introduction of two-foot full rotation jumps and one-foot outside edge stops. Backwards crossover figure eights and forward and backward pivot circles will be mastered. Skills taught at this level are demanding for all kinds of skaters, but the hard work will pay off!

Private RecSkate Lessons

One-on-one instruction. These are great for accelerating your learning, mastering that one problem skill or preparing for the next level. Our instructors will work from the RecSkate program material or address specific skills as needed. Skate rentals are included. See recreation.nanaimo.ca for availability.

RecFigure Skate - Child/Teen

6 to 16 Years

A small group session focusing on developing specific figure skating skills, such as jumps, spins and field moves, as well as continuing to develop the basics of skating. Skaters should have passed a minimum of RecSkate 5 before registering. Completion of RecSkate program or equivalent is preferred.

HOW TO BE GOOD ENVIRONMENTAL STEWARDS...

Join Partners in Parks

- Over 100 invasive plant removal, litter pick up and restoration workparties happened in 2024 (with over 1800 volunteers to date)
- Over 20 community and school groups have been involved in our Adopt-A-Park Program over the last 6 years
- 40 individuals are committed to being regular stewards in our parks and greenspaces as Volunteer Park Ambassadors

Join us! See our Partners in Parks website

Avoid Invasive Plants

Invasive plants can spread rapidly out-competing our native species for resources, water, nutrients and space. They negatively impact our ecosystem, diminishing biodiversity and may be harmful to infrastructure and potentially us. Here are some tips:

- Purchase and plant only non-invasive plants (see bcinvasives.ca)
- Join an invasive plant work party (see page 63)
- Never compost invasive plants in your backyard composter or place in your green bin (bag and dispose in your black bin)
- Never dump organic material (last year's hanging baskets) into your neighbourhood park or green space thinking it will simply compost and "disappear" (did you ever wonder where English Ivy in our parks came from?)
- Bring your invasive plants to our Drop Zone during Invasive Plant Removal in May
- If you see noxious invasive plants, such as Knotweed or Giant Hogweed, please report to our Parks Department

Protect Wildflowers

Camas flowers, along with other local wildflowers, are significant to the local ecology turning meadows into a beautiful rainbow of colours in the spring. Did you know their bulbs were traditionally harvested by the Coast Salish people as a source of carbohydrates and are often found growing under the branches of Garry Oak trees? Please remember to stay on the path while visiting our many parks such as Pipers Lagoon, Bowen, Camas and Neck Point Park - especially during wildflower season.

Encourage a Healthy Ecosystem

Vernal pools are low areas, often on rock or clay, which temporarily fill with rainwater in the spring. These pools are often part of the Garry Oak Ecosystem and contribute to biodiversity providing an ideal environment to a unique set of plants

and animals. Many are considered endangered in Canada. When you see these pools out in nature, think twice before you drain them or stomp in them and look closer to see if you can discover the variety of plants and critters that might call this mini ecosystem home.

Contribute to Food Security

Reimagine Nanaimo (CityPlan) includes policies that promote Food Security and local food production. There are currently 7 community gardens and 3 food forests on City-owned property, plus many nut and fruit trees planted throughout our community's parks and greenspaces to be enjoyed. The City also owns 12 hectares of parkland in the Agricultural Land Reserve that can be used for future food production (located at East Wellington Park and in Harewood at 933 Park Ave.). See our website page on Community Gardens for more information.

Safeguard our Watershed

Reimagine Nanaimo (CityPlan) promotes green or environmental policies that protect healthy watersheds and storm water management. Nanaimo has many ponds, swales and raingardens that collect storm water to filter out pollutants and recharge the groundwater system rather than funneling it directly into underground pipes.

Many popular Nanaimo parks feature storm water ponds and raingardens, such as Hawthorne Park, Brookwood Park, Linley Point and the new parking lot at Westwood Lake Park. Our local marshes also play an important role in a healthy community helping to mitigate weather events and provide habitat value, such as Richards Marsh, Buttertubs Marsh, West Marsh, Molly's Marsh and Northfield Marsh. Protect our watershed by not dumping into waterways and by planting trees and vegetation that are native to this area.

LOTUS PINNATUS PARK

100 Lotus Pinnatus Dr.

This local park is home to globally endangered Garry oak meadows and Nanaimo's floral emblem, Lotus Pinnatus (*Hosackia pinnata*)

Check out this unique area. The flower blooms in June but is still beautiful throughout the summer (June to August).

PUBLIC ART SPOTLIGHT

Robert Turriff's *The ReWilders*

Located in Colliery Dam Park, tucked into the greenery where invasive ivy grows, the two dynamic sculptures symbolize 'rewilding,' the practice of restoring natural habitats. Depicted in the act of removing invasive species and planting native plants, they represent the importance of land stewardship.

The ReWilders are imaginative, sci-fi inspired creatures designed by youth from the Nanaimo community in a collaborative public engagement workshop led by artist, Robert Turriff, as part of the City's Temporary Public Art Program.

Additional information on the project can be found on the City's website.

2025 STREET BANNERS

The 2025 Street Banner Design Program sought proposals from artists focused on the theme 'Metamorphosis & Change' reflecting on positive instances of change and transformation. Nanaimo artist, Aiyem Samay-Sampson's, created a design representing patterns of transformation was selected. Aiyem's design reflects on processes and patterns of change. The organic, familiar shape of a butterfly is seen in abstract, fragmented form, embodying the duality of metamorphosis. Vibrant shapes come together in the artist's design symbolizing both the familiar and unfamiliar, the seamless and abrupt aspects of change that we experience in our communities, relationships and even within ourselves.

2025 street banners will be on display in early spring 2025. See our website to learn more.

WAKE by Poet Laureate, Neil Surkan

To stay with a body through
the night, the track — widening — grown
fainter; also, the motion
of meshworks ever after. We've cut
the outboard to drift
into our berth, having left
the island called Protection
shrinking beyond the stern light,
and so the rollers that diverged
to separate shores behind the prop —
warping the stars (no : planes
and smallsats) spangling the water
like burrs — seem to have lost
connection to our passage .
But even here in the harbour,
hulls squeak against the dock's gumline;
the smooth surface is deeply
alive, the way hunches of hunches swell
in us before we
